Playing out of 1st Position

Position refers to which fret the first finger of the left hand sits on. i.e., bar 1 of Moderato is in 5th position.

Vibrato

Vibrato is an expressive device used by all musicians to add emotional intensity to their playing or singing. On the guitar, vibrato is produced by gently rocking the left arm back and forth, parallel to the neck, while keeping the finger planted firmly on the string. The guitar is more responsive to vibrato the higher up the fretboard you move. Try using vibrato at measures 1-6 in Moderato in A Minor below.

Moderato in A Minor

Dionisio Aguado

Andante in D

Fernando Sor
